

1. For the United DHE

The first thing we want to improve is to help the short interchange between DHE members. It is true that there are lack of the **unity in grade** and the **exchange between the grades**. Also, there is a distance between the Student Council and other members.

As a first solution, we will proceed with the **DHE workshop**, which has a similar character with MT of other clubs and municipalities. We hope that it will play a role in enhancing cohesion.

2. For the Knowable DHE

We are going to expand the **Learning Place for Newbie** to the **DHE General Assembly**. The current Learning Place for Newbie is mainly composed of freshmen who entered the majors. We will arrange a place for direct help, including third and fourth year undergraduates.

3. For the Communicating DHE

We will create a student council that will ask for your opinions and provide solutions, rather than passive student councils.
