

Hello. Design and Human Engineering students. We are Jaehyeok Koo and Hoyeon Yoon, the candidates of the DHE election camp **CTRL+S**.

## 1. For the United DHE

Even in a small classroom, we do not know each other's names and majors. It is also difficult to know what seniors are in your major or what juniors are. We will make the united DHE by making the stronger unity in grade and the exchange between the grades.

## 2. For the Knowable DHE

Our DHE has various facilities such as TD Room, CAD Room and 905 DHE Workshop. When these facilities are used effectively, it can be a great help to academic efficiency, however, it is difficult thing in reality. To solve these problems, We will create an environment where any DHE Undergraduate students can freely use DHE's space.

## 3. For the Communicating DHE

There are many ways to communicate with the DHE student council at present. However, it is a fact that is difficult. Rather than waiting for feedback, we will be the student council that approaches first and solves the problem.
